

INTRODUCING THE NEXT EVOLUTION OF XARIOS® MICRO

ENHANCED DURABILITY | ADVANCED PROTECTION | SEAMLESS COMPATIBILITY

At Myriad, we're committed to continuous innovation, ensuring that every product we offer is built to last. That's why we're excited to introduce the latest micro evolution of the **Xarios®** range—engineered for superior reliability and long-term performance.

WHAT'S NEW?

To enhance durability and protect against environmental factors like water exposure and corrosion, we've incorporated several key improvements:

Anti-corrosion Black Coat	Additional Casing Sealant	Gore-Tex Membrane	Upgraded External Cab & Command Connector
<p>Provides superior resistance against rust and wear.</p> 	<p>Strengthens protection against moisture intrusion.</p> 	<p>Enhances breathability while keeping water out.</p> 	<p>Designed for improved performance and ease of use.</p> 

COMPATIBLE MODELS

This evolution applies to the following Xarios and Integra models:

- Xarios 150/200
- Xarios 300/350
- Xarios 5/6/8
- Xarios 350MT
- Xarios 6MT/8MT
- Integra 35X / 40X / 50X (US Market)

UPGRADED SOFTWARE FOR MAXIMUM COMPATIBILITY

The latest micro evolution is paired with updated software versions, ensuring optimal functionality with the newest hardware:

- **Mono-temperature systems** upgraded from **3.05.0 & 5.01.0** to **4.04.1 & 6.01.1**
- **Multi-temperature systems** upgraded from **3.41 & 3.22 / 5.40 & 5.20** to **4.41.1 & 4.22.1 / 6.40.1 & 6.20.1**

Important Notice: Older micro versions are not compatible with the new software.

Older micros available:

- MPN0514A
- MPN0514B

SPARE PARTS & SERVICE COMPONENTS

To maintain peak performance, this evolution also includes a transition to **new microprocessors and spare parts** with upgraded connectivity features, including an **external RJ45 connector**.

- Standard & multi-temperature micro components available
- Upgraded connectors ensure seamless integration

<p>Micro OEM: 12-00716-52 / -12 / -13 MPN0154C</p>	<p>Connector OEM: 22-61250-00 MPN1270</p>
